BOOST YOUR UNIT PERFORMANCE

Why settle for less, when you can take it to the max? Our dedication to your fleet's success extends far beyond your refrigeration unit. As an integrated solutions provider, we understand and support the unique needs and ambitions of your fleet.

For every outcome you're pursuing, Thermo King offers an **extensive portfolio of smart services and solutions with a digital-first approach**. From uptime and sustainability to savings and control, you'll find everything you need to **enhance the performance of your refrigeration unit**. In other words, we help you to Max Your Cool.

LET'S TAKE YOUR UNIT PERFORMANCE TO THE MAX.

+ MAX YOUR **UPTIME**
Bring uptime to an all-time high, **keeping your units going and earning** for longer.

+ MAX YOUR **SUSTAINABILITY**
Limit your fleet's **footprint** and step up your electric game.

+ MAX YOUR **SAVINGS**
Save smart on **fuel efficiency** and **cut back** on maintenance **costs**.

+ MAX YOUR **CONTROL**
Gain **more visibility** into your operation with our extensive telematics portfolio.

MIX AND MAX

With a complete range of services and solutions, Thermo King helps you maximize your uptime, sustainability, savings, and control throughout your operations. From industry-leading telematics to customizable service agreements and performance-enhancing upgrades. Explore the building blocks of our integrated portfolio right below.

CONNECTED SOLUTIONS

Proactively **manage** your fleet and **monitor** your unit and cargo conditions from any location.

SERVICE CONTRACTS

Maximize **uptime** with quality maintenance, fast response times and 24/7 dealer support.

UPGRADES

Enhance fleet performance with a vast array of original Thermo King upgrades.

GENUINE PARTS

Avoid the costs of poor repairs and insist on **genuine replacement** or **remanufactured parts**.

DIGITAL FIRST

Responding swiftly and making data-driven decisions is crucial in today's integrated cold chain. With **better-connected units, vehicles, and workshops,** you will enhance both visibility and remote control capabilities through the power of data. From **wireless systems** to **industry-leading telematics** and **user-friendly dashboards**: Thermo King puts digital on top, and smarter operations at your fingertips.

Maximizing your uptime is key to a healthy and profitable fleet.
But keeping a full refrigerated fleet on the road is no small achievement.
It takes attention to detail, dedication, and a great deal of paperwork.

To help you get the most out of your fleet, Thermo King offers a broad range of services and accessories to track and monitor your fleet in real time.
If you need support, our Global Dealer Network stands ready to assist 24/7.

DISCOVER A SELECTION OF SERVICES AND SOLUTIONS TO IMPROVE YOUR UPTIME

STAY AHEAD WITH INDUSTRY-LEADING TELEMATICS

+ TRACKING

An easy and intuitive online platform to gather your telematics data and track your fleet and its cargo right from your laptop. **Real-time temperature monitoring, location services, instant alarm notifications** and **direct management access:** it all means peace of mind and happy customers.

+ BLUEBOX (LITE)

A smart data recorder fitted inside of your refrigeration unit. **Registers all telematics information you need to monitor and optimize your refrigerated fleet**, making it directly available in the **TracKing platform and on our mobile apps**.

OUR EXPERTS KEEP YOU ON THE ROAD

+ THERMOKARE SERVICE AGREEMENTS

Thanks to our **customisable service agreements**, your fleet has everything it needs to stay on the road as long as possible! Choose the solution that best fits your fleet and get your vehicles on the road without worry.

+ 24/7 FLEET MONITORING

Keep your focus on your business while **our experts monitor your fleet real-time and around the clock**. They will respond to every issue and arrange for solutions as soon as a problem is detected. And if a remote solution is not possible, our experts will be able to guide your nearest dealer immediately.

PROTECT YOUR UNIT AGAINST THE ELEMENTS

+ SNOW KIT

Protect your unit against the intense cold of winter. The aerodynamically designed cover **keeps snow and ice away from the fans**, to help keep your unit on the road, no matter the weather!

+ HOSE COVER

Just as important as protecting your unit is **protecting the cables and hoses connecting the unit and vehicle**. With Thermo King's hose covers, your **hoses and cables are protected from extreme weather conditions** and hardships on the road. The neutral and aesthetic design will help you promote your brand image!

Stop wasting. Start saving.

Explore solutions for a better bottom line, and ensure a higher residual value of your units. From service kits to genuine replacement parts, Thermo King has the perfect products to keep your costs down! If you're not sure where to start, our authorized dealers can help you find the perfect product or service.

DISCOVER OUR UPGRADES AND SOLUTIONS TO START SAVING NOW

KEEP AN EYE ON YOUR FUEL AND POWER CONSUMPTION

+ TAIL LIFT CHARGER FOR TRAILER

Charge your tail lift with your unit's alternator. The **Tail Lift Charger is designed to protect your reefer's battery** and will only function when the unit is in operation. It is independent of the pulley drive system and will prioritise the reefer battery.

+ ULTRASONIC FUELSENSOR

Avoid costly out-of-fuel stops on the road! **Thermo King's Ultrasonic fuel sensors reliably monitor your fuel levels** so you can keep your trucks going and prevent out-of-fuel shutdowns.

REDUCE REPAIR AND MAINTENANCE COSTS

+ MAINTENANCE PARTS

Reduce your total cost of ownership with the highest quality maintenance parts, made to Thermo King standards and available immediately.

+ REMANUFACTURED PARTS

Thermo King quality, affordable price. Genuine Remanufactured Parts provide a **sustainable alternative to ensure maximum life and performance of your unit**.

TAILORED SERVICE SOLUTIONS

+THERMOKARE SERVICE AGREEMENTS

Choose your preferred service package to keep your fleet on the road.
With a **broad array of service solutions from the experts**, you'll find the ideal solution for your fleet so that you can focus on your business.

+EXTENDED WARRANTY

Get **guaranteed complete warranty support during the first three years of your unit's operational life**. The best level of service, personalised assistance, and round-the-clock emergency availability. Our WarrantyPlus service contract gives you **peace of mind**.

Sustainability is an ever-growing concern in the industry. Both customers and regulations are demanding more environmentally conscious and eco-friendly operations.

With Thermo King, you have access to a wide range of sustainable accessories, services, and solutions to lower your fleet's environmental impact.

You can count on our authorized dealers to help you find the perfect product or service for your needs and ambitions.

DISCOVER OUR PARTS, UPGRADES AND SOLUTIONS TO HELP ACHIEVE YOUR SUSTAINABILITY GOALS

POWER WITHOUT FUEL

+ BATTERY FOR TRUCK

Get a sustainable powersource without replacing your truck's cooling unit. The E-Coolpac is the best of both worlds: an **independent and intelligent power pack** to sustainability power your electric transport refrigeration units.

+ BATTERY FOR TRAILER

Energ–e pack is a smart, high-capacity battery to power your refrigeration unit without running its engine. **Charge the battery both via the powergrid or with AxlePower**. Save fuel and decrease carbon emissions with one simple solution.

+ TRACKING BATTERY PERFORMANCE

Keep a close eye on your batteries with the brand-new electric module in TracKing. **Stay up to date with battery performance, remaining runtime and battery health**, to help you optimize your charging cycles and extend the life of your electric units and vehicles.

INCREASE ENERGY EFFICIENCY

+ SOLAR PANELS

Harvest the power of the sun to keep your batteries healthy while giving your alternators a break. The ThermoLite Solar panels provide the low-current power needed to give your battery a proper charge. No more tractor engine idling to charge the unit's battery and a **longer service life for your battery**.

+ ENERGY CURTAIN

Keep the cold air in and the hot air out. The Energy Curtain **reduces the time that the interior of your trailer is exposed to ambient temperature by 90 to 95%**. Thanks to this, less energy is needed to keep the box on temperature, which in turn **saves 4-7 litres of fuel a day** and helps shrink your vehicle's carbon emissions.

REDUCE WASTE

+ REMANUFACTURED PARTS

Go circular and keep waste out of landfills. Instead of buying new, repair and maintain your units with **recycled and remanufactured replacement parts**. Keep up with sustainable standards without losing quality.

Transporting precious or perishable goods requires constant supervision.
We're here to give you the visibility and protection you need, so both you and your client are assured of compliance and quality of the delivered cargo. Our authorized dealers can help you on your way to maximum control with the ideal service or solution, tailored to your needs.

DISCOVER THE IDEAL SERVICE OR SOLUTION THAT HELPS YOU CONTROL YOUR FLEET AND CARGO

STAY IN THE KNOW WITH TELEMATICS

+ TRACKING

Easy-to-use **online platform to track and manage the refrigeration units across your entire fleet**. The system makes sure you can always stay up to date with your cargo's location and the real-time monitoring and two-way communication means you can intervene the moment a problem arises.

+ TRAILER ASSIST PREMIUM

Integrate vehicle related data into one TracKing platform for a consolidated view on all your assets. Use these insights to improve the way your assets are utilized, manage their assigned tasks and streamline their maintenance schedules.

PRECISE, ACCURATE REPORTING

+ COMBO DISPLAYS

Increase driver awareness and enable them to **undertake timely corrwective actions - without impacting their safety or comfort**. With four available models, you can choose the combo display that suits your fleet and get your drivers monitoring!

+ TEMPERATURE SENSOR

The sensor measures the internal air for climate control systems, so you can measure and **control your temperature with impeccable accuracy**. Get optimal load protection - thanks to real-time internal temperature measurements, not influenced by the internal surface temperature.

GIVE YOUR DRIVERS DIRECT CONTROL

+ WLOG

Keep a **wireless eye on the temperature and humidity** of your cargo with wLog. The small, plug-and-play data logger is EN12830 certified and activated via the mobile app with just a few clicks.

The wireless design **eliminates the risk** of error caused by damaged cables and makes for much **easier troubleshooting**.

+ TK REEFER APP

Insights and control from the palm of your hand. The TK Reefer app is **free of charge** and available for both **iOS and Android**, the TK Reefer is everything your driver needs to **keep their SLXi or Advancer under perfect control**.

DEALER NETWORK

THERMO KING DEALER NETWORK
